

Seder in a Bag

I got the idea from Rite Lite Box of Plagues and then Rite Lite Bag of Plagues. I loved the creativity of the product, designed to make the Seder service even more visual, interactive, interesting, and engaging for all participants. Age was irrelevant as these brought laughs from all! One year, wanting more than one or two for our table, being budget conscious, and also interested in creating potential take home items for participants, I looked for bulk little toys/objects that could symbolize each plague. The local Dollar Store, Oriental Trading, and Amazon were treasure troves of items. I picked up a package of blue organza fabric draw string bags, and behold, our homegrown Seder in a Bag was born. You can copy this exact symbolic layout or create your own! Enjoy!
